

# YES.

---

## New DM NVX™

DM NVX is the 1 Gb network AV solution that works with any network, any application, any design, anywhere.

[crestron.com/nvx](http://crestron.com/nvx)

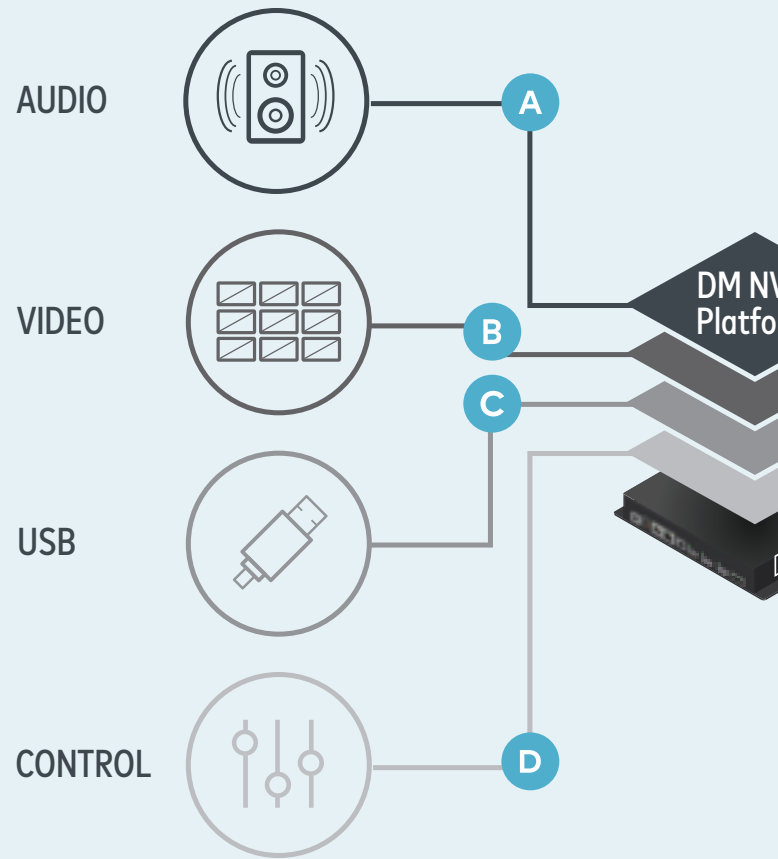

Any network, any ask,  
NVX says yes.

 **CRESTRON**

## Every Format. Every Type of Content. Every Network. Yes.

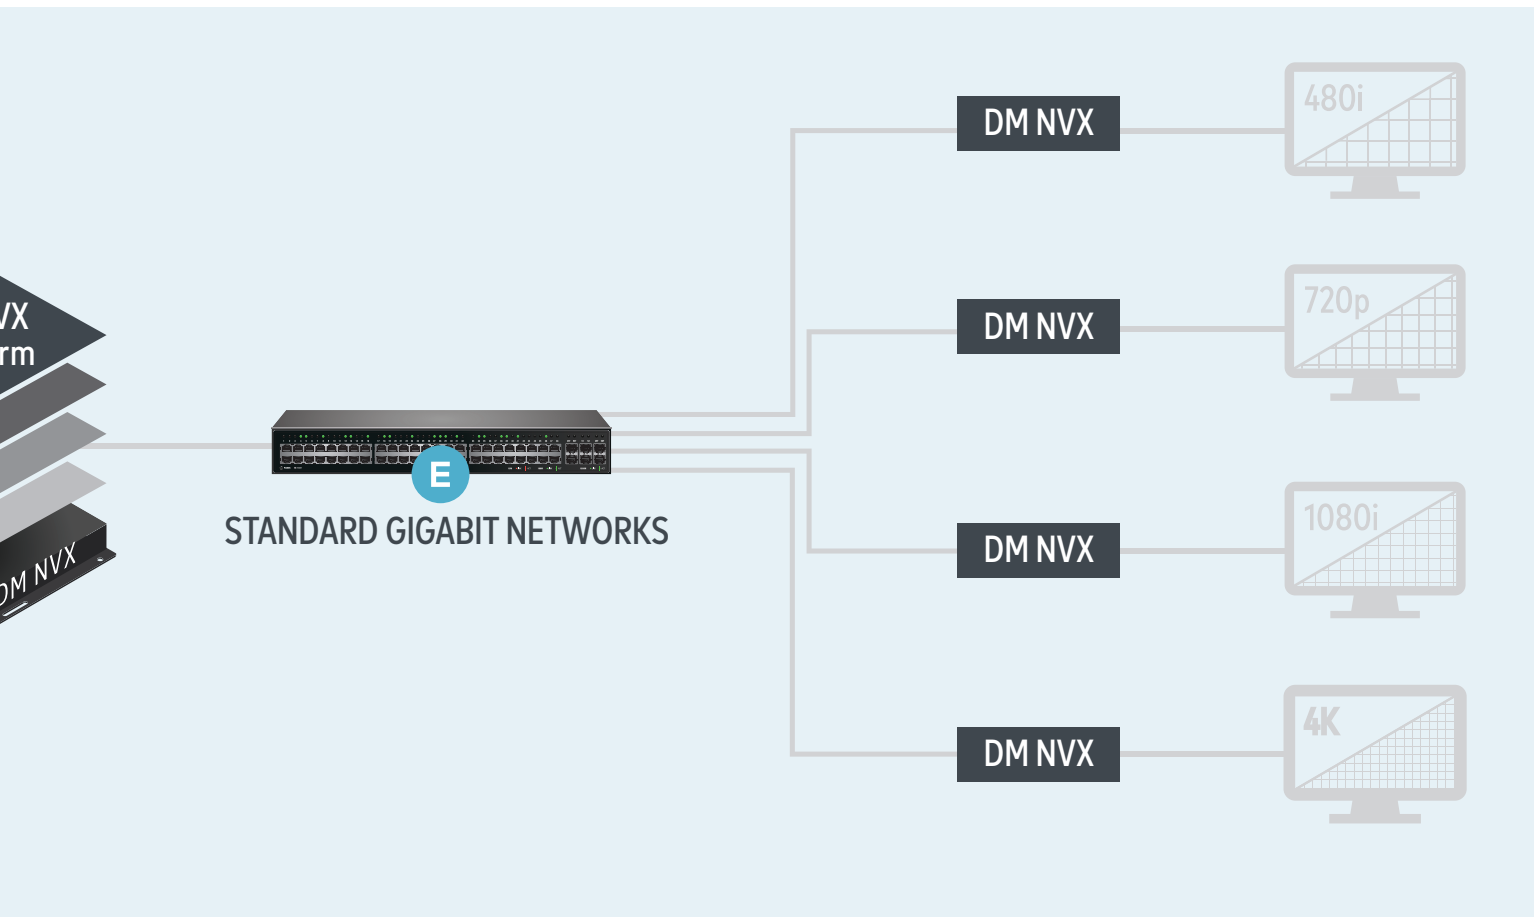

Multi-layered technology ensures that DM NVX works with whatever you have. With DM NVX **all** of your information (not just some of it), is routed through a single unit. Providing you greater flexibility, lower costs, and time to spare.

- A AUDIO:** Supports lossless transport of 7.1 surround sound and stereo audio signals across your network. Dante and AES67 support or onboard DSP for downmixing available on select models.
- B VIDEO:** The only network AV solution with Pixel Perfect Processing. Every format including 4K60 4:4:4, and HDR is picture perfect every time. DM NVX is the standard for network AV.
- C USB 2.0:** USB 2.0 routing for use with a wide range of peripherals. Allows for greater flexibility in network design and requires less hardware.
- D CONTROL:** Uses standard protocols to expand control across entire network providing greater flexibility, system efficiency, and easier management.
- E NETWORK CAPABILITY:** The only 1Gb solution that works with any network, any application, any design. Complete with a full range of enterprise security features.

## Every Picture Perfect Every Time.

DM NVX is the only AV solution with Pixel Perfect Processing for a perfect image every time. Now the finest detail can be revealed in the densest image. Technology so advanced, you won't be able to tell the difference between DM NVX and direct source.

100% zoom without Pixel Perfect Processing
